## Clark Builders to Deliver Kamloops Centre for the Arts as General Contractor

*The new cultural hub is set to energize downtown Kamloops.*

August 27, 2025 – [Clark Builders](#), a division of Turner Construction company, is proud to serve as the General Contractor IPD Partner for the **Kamloops Centre for the Arts (KCA)**, a transformative project being delivered through an Integrated Project Delivery (IPD) model. This new cultural hub is set to energize downtown Kamloops, driving economic development, supporting population growth, and enriching the city's thriving arts community.

The four-story, ~120,000 square-foot Music Hall will be home to the Kamloops Symphony and will host a diverse range of arts and community events. The scope of the project includes integrating the adjacent Kelson Hall, enhancing offsite infrastructure, and constructing administration and office space for both the Kamloops Centre for the Arts Society and other resident organizations.

### Key Features of the New Centre for the Arts:

- ~1,100-seat main stage theatre
- ~450-seat secondary theatre
- Flexible studio, rehearsal, production, and education spaces
- Administrative and tenant offices

- Meeting and commercial spaces
- Underground parking
- Climate-controlled storage and building support systems.

Now in the Validation Phase, the project is being developed in close collaboration with the City of Kamloops and a skilled team of IPD Partners. Construction is targeted to begin in Fall 2025 with completion anticipated in 2029.

“The Integrated Project Delivery model allows us to collaborate early, solve challenges together, and deliver better outcomes,” said **Scott Benoit**, Director, Project Development, Clark Builders. “It’s exciting to work alongside such a dedicated team on a project that will have a lasting impact on the city’s cultural and economic future.”

Clark Builders looks forward to a collaborative partnership with the **City of Kamloops, Station One Architects, Collins Steel, Westcana Electric, Kerr Interior, Interior Plumbing & Heating Ltd., WSP + Rocky Point Engineering, Aercoustics, MCW Consultants Ltd., WSP + Fast + Epp, DWD Theatre Design, True Consulting, Weft Strategies, and VDM Consulting.**
