October 16, 2025 – **Turner Construction Company** has been ranked the **#1 Green Builder in the United States** by *Engineering News-Record (ENR)* for the **18th year in a row**, reaffirming the company's leadership in advancing sustainability, resiliency, and innovation across the built environment.

Turner's recognition reflects its holistic approach to environmental stewardship—reducing carbon emissions, conserving natural resources, and promoting healthier communities through sustainable building practices. The company's portfolio includes more than 1,000 LEED-certified and registered projects and totaled over \$7.8 billion in green revenue in 2024.

"We are honored to once again be recognized as the nation's top Green Builder," said **Julia Gisewite**, Vice President and Chief Sustainability Officer, Turner Construction Company. "This achievement reflects the dedication of our people and partners who are driving real change—implementing innovative materials, low-carbon construction methods, and resilient design strategies that make every project an opportunity to build a better, more sustainable future."

Turner continues to pioneer advancements in sustainable building practices, including the use of mass timber at [Dicke Hall at Trinity University](#), [low-carbon concrete and steel innovations](#) at [San Francisco International Airport's Terminal 3](#), and deployment of an [all-electric skid steer](#) at [The Gateway at UC Berkeley](#). The company is

also constructing the first all-electric soccer stadium in the United States—[Etihad Park](#) in New York—and delivered the [LEED Platinum-certified Intuit Dome](#) in California, which features two megawatts of rooftop solar panels and 11 megawatts of on-site battery storage, enabling the facility to operate carbon free.

###

About Turner Construction Company

Our vision is to be the highest value provider of construction services. We deliver our services on complex and challenging building projects of all types and sizes throughout North America and in 30 countries around the world. We seek to create a healthy, prosperous, and sustainable future for our people, clients, partners, and the planet. We have earned a reputation for integrity, working safely, and driving innovation. With a focus on creating an environment where people can be at their best, be authentic, and be treated with respect and dignity, the company is widely recognized as a great place to work. The firm is a subsidiary of HOCHTIEF, an engineering-led global infrastructure solutions provider with leading positions in North America, Australia and Europe and a rapidly expanding presence in high-tech, energy transition and sustainable infrastructure markets.
