

Press Release

International recognition for ACS and HOCHTIEF's sustainability performance

ACS and HOCHTIEF included in Dow Jones Best in Class World and Europe Indices

ACS Group and HOCHTIEF have been included in the Dow Jones Best in Class World Index and the Dow Jones Best in Class Europe Index, following the latest Corporate Sustainability Assessment conducted by S&P Global.

The Dow Jones Best in Class Indices recognize companies that demonstrate leading sustainability performance across environmental, social and governance criteria. Inclusion is based on the results of S&P Global's annual Corporate Sustainability Assessment, which evaluates companies on long term economic, environmental and social factors.

The continued inclusion of both ACS and HOCHTIEF in the Dow Jones Best in Class Index reflects the Group's consistent focus on responsible business practices, strong governance and measurable progress in key sustainability areas. These include climate strategy, occupational safety, human rights and the responsible delivery of complex infrastructure projects across global markets.

ACS Group Head of Sustainability, Cristina Aldámiz-Echevarría, and HOCHTIEF Chief Sustainability Officer Martina Steffen said: "Sustainability is integral to how ACS and HOCHTIEF operate and create long term value. Inclusion in the Dow Jones Best in Class Indices confirms that our approach is delivering tangible results and aligns economic performance with environmental and social responsibility."

The Dow Jones Best in Class World Index represents the top performing companies from the S&P Global Broad Market Index based on sustainability criteria, while the Dow Jones Best in Class Europe Index recognises leading European companies using the same rigorous assessment methodology.

ACS and HOCHTIEF continue to advance their sustainability agenda. Following the successful completion of established sustainability plans, the Group is assessing new sustainability targets that will be consistent with its commitment to responsible business practices and support long term business success.

HOCHTIEF is an engineering-led global infrastructure solutions provider with leading positions in North America, Australia and Europe and a strong presence in the rapidly expanding strategic growth markets of data centers, energy and sustainable infrastructure markets. With around 62,000 employees and a sales volume of EUR 38.2 billion in 2025, HOCHTIEF is the leading construction management and green building company in the U.S. (through Turner), the largest contractor in the Australian infrastructure services market (CIMIC), a key player in U.S. transportation infrastructure (FlatironDragados) and a renowned civil engineering and building construction company in Europe. The Group's PPP and infrastructure development activity is complemented by its 20% stake in the leading international toll road concessions operator Abertis. HOCHTIEF's strong competitive position is underpinned by the Group's engineering know-how, innovative digital systems and supply chain & logistics solutions. Thanks to its long-standing commitment to sustainability, HOCHTIEF, where green projects account for almost 50% of Group sales, has been listed in the Dow Jones Sustainability Indices since 2006 and is committed to delivering on its ESG agenda including a net-zero target for 2045.
