

Your Opportunity in Australia and New Zealand

CIMIC Group is an engineering-led construction, mining, services and public private partnerships leader with a history dating back to 1899. Due to our ever-growing portfolio of national and international projects, we have opportunities to relocate to Australia and New Zealand to join our dynamic team across two of our operating companies, CPB Contractors and UGL.

ABOUT CPB CONTRACTORS

CPB Contractors is the Australasian construction company of the CIMIC Group. CPB Contractors is Australia's leading contractor and the largest infrastructure construction company in our region – we are proud to be constructing Australia's future and do so collaboratively with our partners and clients. We have been delivering landmark projects for more than 90 years and take pride in our heritage. CPB Contractors delivers across Australia and New Zealand in all key sectors of the construction industry, including roads and bridges, rail, tunnelling, defence, airports, buildings and resources, with current infrastructure projects ranging in size from about \$50 million to \$9 billion. This diversity of sector, location and project size provides our people with a multitude of internal career paths on very long-term projects. We are people, project and outcomes focused, and safety is our first priority. We are proud to be playing a key role with our government clients to create a more sustainable industry on the path to net-zero.

ABOUT UGL

UGL is CIMIC Group's specialist end-to-end engineering and services provider, with a rich history dating back to 1899. Now a market leader in many of the sectors in which it operates, UGL works on projects which play a role in people's lives every day. UGL keeps Australia moving through its transport manufacturing, maintenance and operations offering across Australia and New Zealand, and is helping to shape the country through major infrastructure projects in Australia's biggest cities. UGL is preparing for the future with new energy, defence, telecommunications, utilities, and technology expertise – all supported by UGL's in-house engineering function. UGL is committed to sustainability and is perfectly positioned to support governments and traditional energy customers in their energy transition through the installation and operation of solar, battery and other renewables assets and the infrastructure required to support it. UGL's priority is its 7000+ people and their safety, and UGL is committed to the many communities it serves across Australia and New Zealand.

CPB CONTRACTORS & UGL OPPORTUNITIES

To achieve our growth, we need talented people from a diverse range of backgrounds and skillsets to work on infrastructure projects in the roads, rail, tunnelling, defence, building and resources sectors within these broad disciplines:

1. Bid Development (Estimating)
2. Engineering (Civil, Tunnelling, Building, Rail Signalling, Rail Systems, System Assurance, Cyber Security, Design Managers)
3. Project Management
4. Risk, Controls and Assurance (Commercial, Quantity Surveying, Planning, Quality)
5. Safety, Health, Environment and Quality (Sustainability)
6. Supervisory (Superintendents & Supervisors MEP on large Infrastructure projects)
7. Technical (Survey)

For many decades, we have been successfully hiring people from all over the world, so we understand it's a big decision. It's also a huge adventure and opportunity to develop and grow. That's why we will support you every step of the way, including a professional approach to visa sponsorship and relocation.
